

DTEX Insider Intelligence and Investigations (DTEX I<sup>3</sup>) is an investigations and research division focused on delivering cutting-edge insider threat behavioral studies, intelligence packages and forensic investigations.

DTEX I<sup>3</sup> brings together experienced behavioral researchers, consultants and an elite team of insider threat investigators to create intelligence-driven, investigation-ready capabilities. The team publishes counter-insider threat research as blogs, quarterly digests and in-depth reports focused on human behaviors to help business leaders, security practitioners and regulatory bodies better understand, design, deploy and manage workforce cyber intelligence and security initiatives.

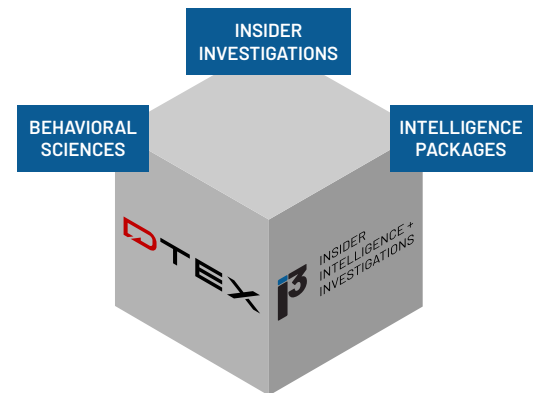

As workforce behavior deviates from the norm, DTEX I<sup>3</sup> works side by side with customers to respond to DTEX's Workforce Cyber Security InTERCEPT Platform's automated reports and findings, identify internal risks, evaluate their severity and ultimately protect from malicious, negligent and compromised users while preventing data loss. The founding members of DTEX I<sup>3</sup> bring decades of experience in advanced insider threat and data loss research, analysis and hunting from notable companies, including Deloitte, Raytheon, Symantec and Sophos.

The **DTEX Insider Intelligence & Investigations** team offers a comprehensive set of services, including threat investigations and assessment, trends reporting, insider program posture analysis and more. The I<sup>3</sup> team is experienced at augmenting new, emerging and established Insider Risk and Data Loss programs with areas of impact and services, including:

- **Managed Insider Risk Management (IRM)** – Managed IRM from DTEX I<sup>3</sup> is a subscription-based consultancy offering that provides mid-size enterprises and SLED organizations with Insider Risk Detection and Mitigation support utilizing the DTEX InTERCEPT Workforce Cyber Security Platform. DTEX team members perform continuous insider risk, data loss vector and user compromise monitoring and protection.

## DTEX I<sup>3</sup> SERVICES

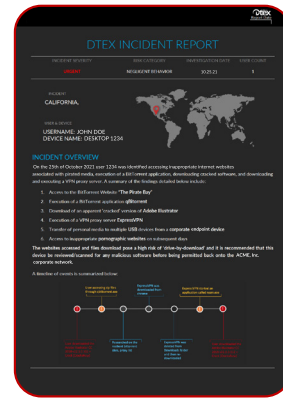

- Managed Insider Risk Management
- Insider Incident Investigations
- Workforce Risk Benchmarks
- Emerging Risk Insights
- Insider Risk and Assessments

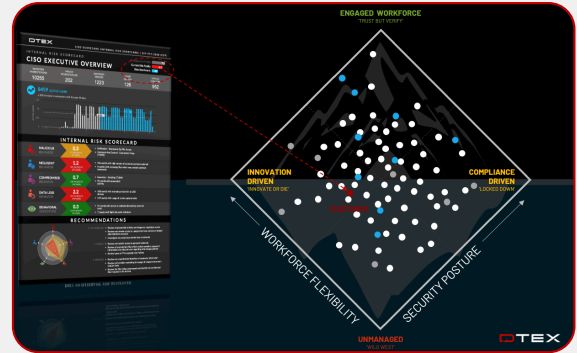

DTEX InTERCEPT™ is a first-of-its-kind Workforce Cyber Security solution that brings together the capabilities of Insider Threat Management, User and Entity Behavior Analytics, Digital Forensics, and Endpoint DLP in an all-in-one lightweight, cloud-native platform.

Only DTEX InTERCEPT delivers the context and intelligence that answers the **Who, What, When, Where and How** related to any potential insider threat situation, compromised account event or data loss scenario.

- Insider Incident Investigations** – In the case of an identified insider event, DTEX I<sup>3</sup> performs evidentiary-quality forensic investigations. This offers full details of insider activity and intent to determine severity and provides customers with the cyber evidence required by law enforcement to exonerate or prosecute individuals in question, as well as inform user education programs.

- Workforce Risk Benchmarks** – Internal risk audits offer customers a comprehensive review, providing data-driven evidence of their insider risk posture, data loss vectors, overall risk posture and level of flexibility given to the workforce. This includes actionable recommendations designed to help organizations balance risk with business requirements.

- Insider Risk Assessment** – Designed for organizations that are not customers of DTEX, this service is a commitment-free, 30-day comprehensive review that identifies and analyzes an organization’s insider risk posture and data loss vectors across common user activities and behavioral categories. It includes actionable recommendations in preparation for regulatory audits and as due diligence for forthcoming M&A activities.

- Emerging Risks Insights** – Leveraging a range of novel and proprietary techniques and tools, this in-depth review helps customers identify new risks and business insights that have not otherwise been surfaced. Risk Insights focus on behavioral profiles that evolve over time and those that may be specific from organization to organization.

*To fully understand any insider incident, visibility into the nuance and sequence of human behavior is pivotal. DTEX I<sup>3</sup> brings unparalleled experience investigating the human behaviors and Indicators of Intent that are always the root cause of an insider incident.”*

**Rajan Koo,**  
Chief Customer Officer, DTEX Systems
